Project Coordinator | Digital Operations for Construction, Renovation & Client-Facing Businesses

RedLikeRosesT@gmail.com · Telegram: @RouzWinterson · Remote / Flexible Time Zone

SUMMARY

Detail-driven Project Coordinator with hands-on experience running digital operations for construction, renovation, and professional-services businesses across the Netherlands and Germany. Co-owner (50%) of a hosting infrastructure company (Flabbycloud). Background in web development and systems integration gives a strong edge in managing project software, vendor coordination, documentation, and AI-driven workflow automation. Comfortable working independently across time zones, with strong English communication (B2–C1) for client calls and requirement-gathering meetings.

EXPERIENCE

Co-Owner & Technical Operator

Flabbycloud (Hosting Infrastructure) · Remote

2024 — Present · 50% Ownership Stake

- Co-own and help operate a hosting infrastructure business, including server provisioning and client onboarding.
- Manage server deployments and technical operations for multiple client projects running on the company's infrastructure.
- Coordinate uptime monitoring, DNS management, and deployment pipelines across a multi-node hosting environment.
